

100+ universities, scholarships await: Explore US-Canada study prospects

A bachelor's degree from the US or Canada serves as a launchpad, equipping students with the requisite skills and knowledge to confidently explore diverse career avenues and lay the groundwork for advanced studies.

"Recent statistics reveal a notable 35% increase in the number of Indian students studying in the USA and Canada," remarked Subhakar Alapati, founder director of Global Tree. "Navigating the dynamic realm of international education demands strategic planning and perseverance, but the rewards of overcoming rigorous competition are undoubtedly worthwhile. With unwavering dedication, we have established ourselves as a premier destination for aspiring students looking to pursue studies abroad. Our flagship event, the USA-Canada Study Expo 2024, serves as a hub of opportunities for those aspiring to study abroad, bringing together over 100 leading universities from North America under one roof."

The USA-Canada Study Expo is scheduled for February 3rd at Taj Vivanta, Hyderabad, starting from 11

AM. "Attendees can explore a wide array of academic programs, including bachelor's and master's degrees, and even secure on-the-spot admissions," says Subhakar, adding, "Furthermore, the expo features enlightening sessions led by industry experts, offering students a comprehensive understanding of the educational landscape and career prospects overseas."

Acknowledging that financial

constraints often impeding students' pursuit of higher education, he adds, "We

are committed to facilitating access to universities that offer in-state tuition fees, scholarships, and teaching assistantships to students who apply through our company. This initiative significantly alleviates financial burdens on parents while enabling their children to pursue studies abroad."
